Getting here

Please follow the step-by-step instructions below to reach the accommodation:

Drive to number 729 on the Chemin du Baou des Noirs. **Please note** this is a small, uphill road that may be a bit uneven, so we recommend driving at 30 km/h.

This is where you should arrive:

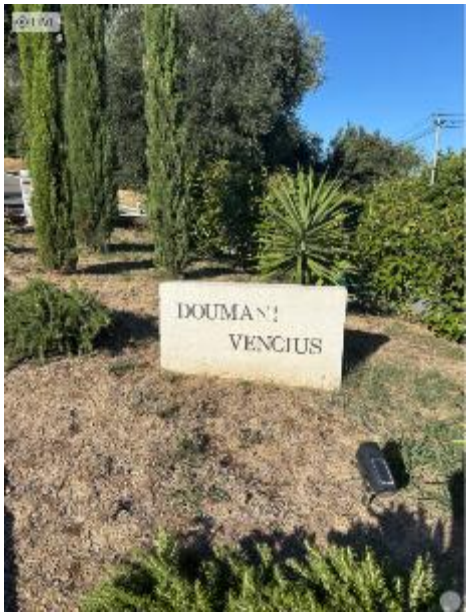

You must take the uphill path to the **LEFT** of the mailboxes and follow it to the end.
You will pass between two white pillars on either side of the path; on your right, you will see the name of the estate, "Domani Vencius".

Do not park in the private parking spots of our neighbor.

Then the road turns to the left. **BE CAREFUL:** the slope is quite steep, and the turn is a bit tight, so drive slowly.

After the turn, you will arrive at the top of the path with a gate in front of you. You have arrived! 😊
On the right pillar of the gate, you will find a keypad. Enter the code **1010*** to open the gate.

Once you have entered the code, the gate will open. **WARNING! Do NOT drive straight ahead: the land is terraced and you could drive over the edge**. Bear slightly to your right (without turning uphill) and park just in front of the three white pillars, in the parking space reserved for you, as shown below.

Self Check-in

Self-check-in is done via a secure key box.

Once parked, turn around and **walk** up the path on your left. You will find the key box attached to the terrace, as shown below:

Slide down the black cover of the key box to reveal the code. Enter the code: **1010**. Then press down the small button located to the left of the code to open the key box.

Take the key and walk to the front door, which is to your left, just past the wooden terrace. Welcome home! 😊

Amenities and the pool

The apartment has reversible air conditioning, meaning it works as a heater in the winter and a cooler in the summer. It is controlled by the remote hanging on the wall of the main room, just to the left of the door as you enter.
Please help us save energy and protect our planet! **Thank you for closing the bay windows when using the heating/air conditioning and for turning it off when you leave the apartment.**

Basic Supplies: You will find the following items available in the apartment:

- **Kitchen:** Salt, pepper, olive oil, and dishwasher liquid (please do not use anything else). If you run out of any of these items, please let us know.
- A **welcome kit** is provided. Any additional supplies you need during your stay will have to be purchased by you:
  - 1 roll of toilet paper
  - 1 laundry pod
  - 1 trash bag

It is very important NOT to use powder detergent in the washing machine or the dishwasher, as it blocks the pipes.

Outside of these times, the pool is reserved for the owners, who also handle regular maintenance (cleaning and water care).
These hours can be flexible (e.g., sun sensitivity, returning late from a day trip). Feel free to ask us—adjustments can easily be arranged upon request and with explicit agreement from the owners.

Night swimming is prohibited. We offer the option to privately reserve the pool with water and terrace illumination for €20 per hour. These reservations are subject to availability and the owners' approval.
